

The Institute of Asphalt Technology  
**South East Branch**

**Monday 22<sup>nd</sup> July 2019**

**The Counting House**

**50 Cornhill, London, EC3V 3PD**

**Technical Evening Meeting @ 18:30  
(Food served at 19:30)**

**Horse Safe Road Surfaces**

Horses slipping on asphalt is a common occurrence and leads to serious accidents. A new surfacing solution has been developed by Bob in conjunction with the Jockey Club and Stablesoft and is installed and on trial in Newmarket. Over 1000 horses a day are crossing the road at this location.

The development and certification of this new horse safe material will be presented and discussed.

Will this be the new horse surfacing in the future ??

Bob Noakes, (Bob Noakes Engineers Ltd).....

***A finger buffet will be provided after the presentation @  
19:30***
