

**TRAINING DAY
EXPANDING ON THE ASPHALT LAYING GUIDE
FRIDAY 26 MAY 2023**

Apex Hotel, City Quay, Dundee

The **Scottish Branch** of the Institute of Asphalt Technology (IAT) are pleased to announce a training day focussed on specification, manufacture and laying of asphalt.

Topics include:

- Standards, guidance, and quality systems for asphalts
- Asphalt mixtures and their component parts
- Planning and preparatory work for laying of asphalt
- The art of laying asphalt and the importance of compaction
- Testing and aftercare of asphalt materials
- Update on professional qualifications with the IAT

Background

The training day has been put together by the members of the Scottish Branch committee, each drawing on their skills, knowledge and expertise in their particular field.

Who should attend

The day is intended for those who are starting out in the industry, as well as those who are more experienced but looking to understand the practical elements in more detail.
