This one-day course is aimed at Engineers and Technical personnel from both the public and private sector who are currently involved in road design, road construction and/or road maintenance, supervision, and site testing. The course will run over one full day and offers a unique opportunity for delegates to update their knowledge on many aspects of Materials, Specifications, Quality Control, Sustainability, Site supervision and Site Testing for Road Pavement Works.

The course fee is €320 which will include lectures, course notes, refreshments, and lunch.

The Institute of Asphalt Technology is a professional body, the aims of which are to provide a better understanding of bituminous paving materials and to promote improved standards in all aspects of their use. We hope that this course will be of interest to your organisation.

You are therefore invited to forward the name and purchase order number for participants to the above contacts.

Should you have any questions in relation to the course, please do not hesitate to contact the IAT course co-ordinator Alan Lowe email: qc pavementcourse@instituteofasphalt.org
